

THE DESCENDANTS OF WILLIAM BROWN OF VIRGINIA, 1740-1965

Arthur K. Strasburger, Margaret H. Abbott, Roswell Eldridge,
Robert L. Hargrave and Victor A. McKusick

Division of Medical Genetics, Department of Medicine,
The Johns Hopkins University School of Medicine,
Baltimore, Maryland 21205

PREFACE

In 1906 while at the Johns Hopkins Hospital, the famous neurosurgeon Dr. Harvey Cushing became interested in the descendants of William Brown, a Scotsman who immigrated to America and settled in Virginia about 1740. Over the next ten years Dr. Cushing gathered information about the family, and in 1916 published the family tree in the first issue of GENETICS (1). His report was a paper on the inheritance and nature of the trait stiff fingers, an unusual but harmless condition characteristic of some members of the family. The scientific name he gave the condition was symphalangism. At the time Dr. Cushing's work was published, descendants were traced to the seventh generation through the two daughters of William Brown, Grace (Mrs. Robert Barns) and Sally (Mrs. William Mustard). Later the third line came to light when Hefner (2) in 1924 and one of us (R.L.H.) in the 1930's documented Ohio and Texas branches which were descendent from Low (or Lew) Brown, son of William.

Interest in the genealogy was revived in 1963 by Dr. McKusick and his associates. The Cushing, Hefner, and Hargrave pedigrees were brought up to date; and, with assistance from family genealogists, published local histories (3,4,5,6) and the Federal Census (7), nine generations were traced (8). The following is a record of the nine generations.

The data are presented according to the genealogical numbering system to which there is a name index. A person's number (read from right to left) identifies his ancestral line. Thus, individual 1141, Robert Barns, is the first offspring of the fourth offspring of the first

offspring of the progenitor, William Brown, and the lineage reads:

Robert¹ Barns, William⁴, Grace¹ (Brown), William¹ Brown. Spouses carry their partner's number suffixed by A or B to indicate the order of marriage. Thus, 1141A, Ella (Gibson) Barns, is the wife of Robert Barns.

We wish to express our gratitude to Mrs. J. Nan Hoge Bowen, Mrs. Joseph Stafford Moss, Mr. Francis Moss Hoge, Mrs. Eleanor Morehead, Mr. William S. Winfrey, Mrs. J. C. Fuller, Mrs. H. A. Lattimore, Mrs. Floyd Reaves and all the many members of the family who so graciously participated in this endeavor. Preparation of this genealogy was undertaken as a token of our appreciation of the help provided by the family. It has not been possible to search out vital records, wills, deeds and other primary documentation exhaustively. However, the account could be the basis for a more complete and extended genealogy. It is presented as a summary of family history collected in connection with a scientific study and is the work of many people. We have served chiefly as compilers and arrangers.

Copies for reference purposes have been offered to the Virginia Historical Society in Richmond, the Texas Local History and Genealogy Department of the Dallas Public Library, the New England Historical and Genealogical Society in Boston, the Genealogical Society of the Church of Jesus Christ of Latter-Day Saints in Salt Lake City, the Newberry Library in Chicago, and the Public Library of Fort Wayne and Allen County in Fort Wayne.
